Power on/off

When the student has permission to control electricity and the balance is > 0 , he can turn on/off the electricity.

This function can only be used when the room charging mode is **[Billing]**.

Student Center

Student Info	
 Name / Student ID : D0532公用卡/0000D0532	
 Dormitory number : D0532	
 System Balance : 100 / NTD	

No Power on/off Permission, Please Confirm With Other Students!

No Power on/off Permission

When the student doesn't have permission to control electricity, no matter how much the balance is, he cannot turn on/off the electricity.

Only one person in a room has permission to control electricity.

If student A has permission and wants to transfer it to student B, A needs to turn off the power first, and then B logs into the page. At this time, B can turn on/off the power.

 System Balance : 0 / NTD	

Insufficient Balance Cannot Activate Power

Insufficient Balance Cannot Activate Power

When the student has permission to control electricity, but the balance is ≤ 0 , it shows that insufficient balance cannot activate power.

At this time, any other student in the same room can log in to the page, and the page will display the power on/off.

Unable to Turn on/off the Electricity Without Check-in

Unable to Turn on/off the Electricity
Without Check-in

When the student is a non-residential student, it shows that the power cannot be turned on/off.
